Ridley College

Display Booth #14

As one of the original schools established in Canada, we carry on certain traditions and add new ones because they have meaning and value to our community. Beginning the day in Chapel centers our souls and our community. The work and beauty of precision Cadet Corps marching bonds all Ridleians in leadership and service. Our classical architecture – elegant and substantive – stands for the strength of our school community, the bonds we share while we are here, and the care we all take to sustain this great place. Our motto – *Terar dum prosim* (May I be consumed in service) – is perhaps more relevant today than ever as your generation is ignited by the fire of social responsibility and service more than any in decades.

Ridley's world prep education and experience begin in the Lower School with our youngest students and builds through Upper School, which includes a post-graduate year program. We offer the Ontario Secondary School curriculum, Advanced Placement courses, five languages, arts, drama, music, and a best practice cross-disciplinary pedagogy in the Lower School.

What is true for you? What do you value enough to sustain? Where better than a school of timeless traditions to figure that out.

The York School is a coeducational, non-denominational, independent day school that brings curriculum to life inside and beyond the classroom.

We earned the honour of being the first school in Canada and the fourth in North America accredited to offer the International Baccalaureate programme for students from Junior Kindergarten to Grade 12. The IB Diploma is the ultimate passport that opens doors for our graduates and enables them to enter the best post-secondary institutions throughout the world, confident that they are equipped with the knowledge and skills required to achieve success.

Our co-curricular programme offers diverse activities conducted outside the classroom to complement the curriculum. Our academics and student life provide the optimal balance for a holistic approach to education. Our mission is to develop inquiring, knowledgeable and caring young people who are engaged citizens of the world.

TPS was created by a group of education consultants who are experts on Canadian private and independent schools. We saw a lack of quality information on the web and a need to provide families with thorough information about the private school landscape in Canada. Our website, TopPrivateSchools.ca, aims to be a complete research center with a continuously expanding knowledge base for private schools and private school admissions. We hope our resources can help you make informed decisions about your family's education options.
